OSU tests weekly, three groups: On-campus students, Off-campus students, and OSU staff/employees. Positivity rate is coming down with messaging and participation of wearing masks and staying social distanced.
  - Gov. DeWine reported on gun violence in Ohio. From September 1 to September 7, 40 people were shot; more than half have died.
  - Ohio COVID-19 Cases: 131,992 with 656 positive cases reported over the last 24 hours. Total Ohio deaths: 4,298 with 22 deaths reported over the last 24 hours.
  - Top 10 Ohio Counties: Putnam, Butler, Meigs, Mercer, Montgomery, Shelby, Auglaize, Darke, Franklin, and Henry.
  - Dr. Aaron Hamilton, Cleveland Clinic's Associate Chief Safety & Quality Officer discussed what Ohioans should consider when deciding whether or not to attend an event.
  - Gov. DeWine addressed the internet rumor on the Non-Congregate Sheltering Order. On March 31, President Trump declared a major disaster declaration for the state of Ohio. The order was renewed on April 29 and again on August 31. The Non-Congregate Sheltering Order does not create FEMA camps. The sheltering order provides a safe space (such as hotel rooms) for individuals to use to self-quarantine, when needed. For example: first responders who work in a COVID environment and don't want to risk taking the disease home and exposing their families. "Bottom line: Neither FEMA nor the Department of Health are going to set up 'FEMA camps' for anyone to quarantine against their will. What we are doing is making available a safe place for people to state when they have loved ones they are trying to protect and they have no other place to go."

- Ohio Homeland Security
