

COVID-19 Situation Report

Coronavirus

Incident Name: novel Coronavirus (Sit - Rep #42)

Start Date: 6/24/2020 End Date: 07/01/2020
 Start Time: 5:00 PM End Time: 5:00 PM

Report Prepared by: Larry Cleek, Emergency Preparedness Coordinator

The information in this report is current as of: 6/24/2020 @ 5:00 PM

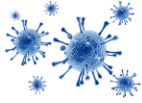

Current Situation:

Public Health – Dayton & Montgomery County, the Ohio Department of Health (ODH) Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO) are closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus (termed “COVID-19”) first identified in Wuhan City, Hubei Province, China in December 2019 and which continues to expand.

| | United States | Ohio | Montgomery County |
|--------|---------------|--------|-------------------|
| Cases | 2,347,022 | 46,759 | 1,392 |
| Deaths | 121,228 | 2,755 | 21 |

Current Updates:

- **It needs to be continually enforced that we are still in the middle of a pandemic. Enforce social distancing, hand-washing and the wear of masks.**
- Globally the World now has 9,229,049 cases and 477,269 deaths from COVID-19.
- Governor DeWine mentioned in his press conference last week that Montgomery, Clark, Greene and Warren counties are seeing increased cases,
- Hot spot zip codes in Dayton, Trotwood and Huber Heights were also mentioned during the same press conference.
- The first pop-up test site in Montgomery County is being held at Samaritan Health Center on June 25th from 9 AM to 4 PM.
- Public Health completed another 1,700 sample collections at hotspots this week.
- The Ohio National Guard continues to conduct testing at Nursing homes within the county, expected to last into the first week of July.
- Public Health is working with the Guard and the regional lab to identify additional pop-up sites for Dayton, Huber Heights and Trotwood. Pop-sites are free to the community and require no doctor’s script. Pop-up sites will initially target hotspot areas.
- Public Health continues to plan for specimen collection at other hotspots within Montgomery County.

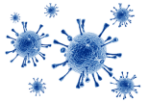

COVID-19 Situation Report

Coronavirus

- Currently the county drop-site has an abundance of PPE. PPE is targeted towards first responders, healthcare workers and congregant site locations. Requests for PPE can be made through the following link: <https://surveys.phdmc.org/s3/COVID-19-EOC-Resource-Request>
- The county will receive another Strategic National Stockpile (SNS) delivery on Monday, June 29, 2020.
- Congregate locations such as nursing homes, jails, etc. can request sample collection kits directly from Public Health by calling 937-225-4508.
- Public Health continues to meet weekly with the University of Dayton to discuss planning issues for the summer as well as the fall.
- Public Health continues to facilitate conference calls with congregate locations within the county.
- If you wish to learn how to make your own homemade masks go to the following link: https://youtu.be/c0zOVbE0_FU
- The Public Health COVID-19 informational phone line remains open Monday through Friday to answer general questions. The info line is 937-225-6217.
- ODH information line remains open, the number is 1-833-4-ASK-ODH and is open seven days a week.
- Public Health continues to monitor all sources (ODH, CDC, WHO, European Center for Disease and Prevention and Control (ECOC) for the latest information.
- Public Health maintains its one-week operational period for this response.
- Public Health will continue to share the situational report with other local health departments, Montgomery County Emergency Management, Greater Dayton Area Hospital Association and Dayton Metropolitan Medical Response System partners.

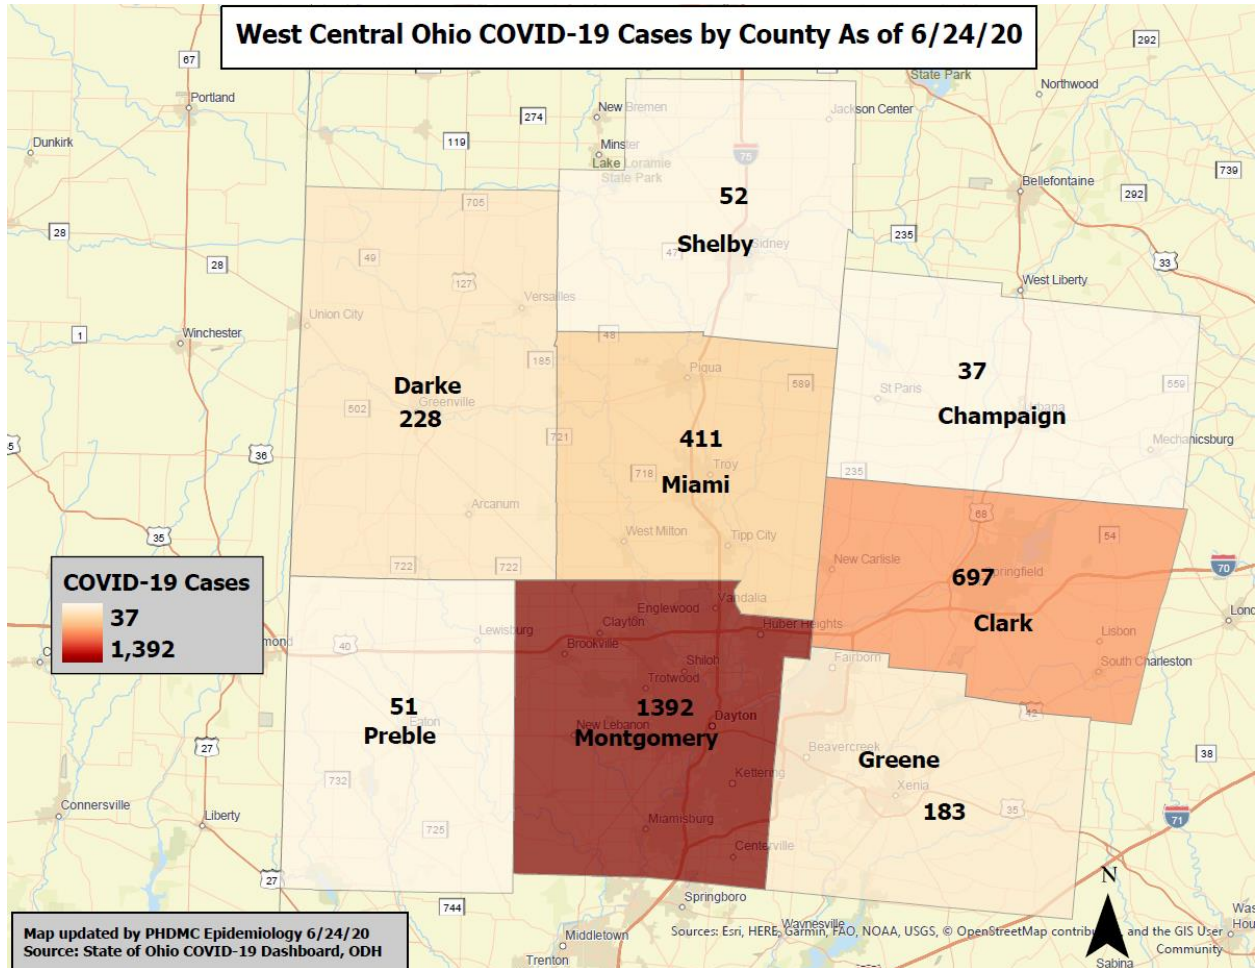

COVID-19 Situation Report

Coronavirus

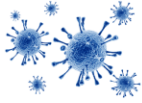

Regional Breakdown of cases:

CDC Update (Situation in the US):

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus named COVID-19. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other [international locations](#), including the United States. CDC will update the following U.S. map daily. Information regarding the number of people under investigation will be updated daily.

CDC Response Updates:

Level 3 Travel Health Notice: Widespread ongoing transmission with restrictions on entry to the United States

CDC recommends that travelers avoid all nonessential travel to the following destinations. Most foreign nationals who have been in one of these countries during the previous 14 days will not be allowed to enter the United States.

- [China](#)
- [Iran](#)
- [Most European Countries](#)
- [United Kingdom and Ireland](#)

Level 3 Travel Health Notice: Widespread ongoing transmission without restrictions on entry to the United States

CDC recommends that travelers avoid all nonessential travel to all global destinations:

- [Global Pandemic Notice](#)

Level 2 Travel Health Notice: Ongoing community transmission

CDC recommends that older adults and people of any age with serious chronic medical conditions should consider postponing nonessential travel to most global destinations.

Level 1 Travel Health Notice: Limited community transmission

CDC recommends travelers practice usual health precautions recommended for their destination.

World Health Organization Update:

- Mr. Bean has joined the war against COVID-19! A cartoon has been developed by WHO in partnership with Project Everyone and Tiger Aspect Productions, to remind the public to continue to take precautions to prevent COVID-19 infection and spread.
- 23 June marked Olympic Day. This year, the International Olympic Committee and WHO, together with the United Nations, launched a partnership to encourage individuals and communities around the world to be #HEALTHYtogether.
- WHO has released a scientific brief on Breastfeeding and COVID-19 examining the evidence of the risks of transmission of COVID-19 from an infected mother to her baby through breastfeeding, as well as evidence on the risks to child health from not breastfeeding. WHO recommends that mothers with suspected or confirmed COVID-19 should be encouraged to initiate or continue to breastfeed.

Coronavirus

New Cases by Day

The following chart shows the number of new COVID-19 cases reported each day in the U.S. since the beginning of the outbreak. Hover over the bars to see the number of new cases by day.

Current Objectives:

1. Limit the spread of disease within Montgomery County.
2. Continue to monitor the situation in conjunction with the Ohio Department of Health and the Centers for Disease Control and Prevention.
3. Continue information sharing with partners.
4. Continue to provide information to the media and the public through interviews, social media and our website.

Long-term Planning Considerations:

Continued monitoring and maintaining surveillance locally.

Epidemiology Syndromic Surveillance Summary:
