

COVID-19 Situation Report

Coronavirus

Incident Name: novel Coronavirus (Sit - Rep #43)

Start Date: 7/01/2020 End Date: 07/08/2020
 Start Time: 5:00 PM End Time: 5:00 PM

Report Prepared by: Larry Cleek, Emergency Preparedness Coordinator

The information in this report is current as of: 7/08/2020 @ 5:00 PM

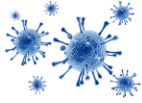

Current Situation:

Public Health – Dayton & Montgomery County, the Ohio Department of Health (ODH) Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO) are closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus (termed “COVID-19”) first identified in Wuhan City, Hubei Province, China in December 2019 and which continues to expand.

	United States	Ohio	Montgomery County
Cases	2,634,432	52,865	1,784
Deaths	127,410	2,876	26

Current Updates:

- **It needs to be continually enforced that we are still in the middle of a pandemic. Enforce social distancing, hand-washing and the wear of masks.**
- Globally the World now has 10,446,353 cases and 511,037 deaths from COVID-19.
- Mayor Whaley announced today that masks will be mandatory for the city of Dayton. The wearing of masks will be mandatory within buildings and outside when social distancing is not possible. This would go into effect on Friday at 8 AM.
- Public Health has requested additional contact tracing support from the West Central Ohio region as well as the Ohio Department of Health.
- Pop-up testing with the Guard last week collected over 2,200 samples between Greene and Montgomery County.
- Public Health conducted sample collection on four different days last week collecting over 1,700 samples.
- Public Health has turned in its plan for pop-up testing to the state for Guard assistance. Awaiting confirmation from the state on pre-identified sites for testing in Dayton, Trotwood and Huber Heights.
- Regional lab is backed up on test samples as they are being inundated with samples from the Guard and the local health departments with the region.

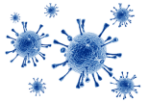

COVID-19 Situation Report

Coronavirus

- Currently the county drop-site has an abundance of PPE. A large shipment of gowns will arrive Monday at our county drop-site. Requests for PPE can be made through the following link: <https://surveys.phdmc.org/s3/COVID-19-EOC-Resource-Request>
- State plan for schools K-12 are projected to be released next week.
- The Ohio National Guard continues to conduct testing at Nursing homes within the county, expected to last into the first week of July.
- Public Health continues to plan for specimen collection at other hotspots within Montgomery County.
- The county will receive another Strategic National Stockpile (SNS) delivery on Monday, July 6, 2020.
- Congregate locations such as nursing homes, jails, etc. can request sample collection kits directly from Public Health by calling 937-225-4508.
- Public Health continues to meet weekly with local colleges and universities to discuss planning issues for the summer as well as the fall.
- Public Health continues to facilitate conference calls with congregate locations within the county.
- If you wish to learn how to make your own homemade masks go to the following link: https://youtu.be/c0zOVbE0_FU
- The Public Health COVID-19 informational phone line remains open Monday through Friday to answer general questions. The info line is 937-225-6217.
- ODH information line remains open, the number is 1-833-4-ASK-ODH and is open seven days a week.
- Public Health continues to monitor all sources (ODH, CDC, WHO, European Center for Disease and Prevention and Control (ECOC) for the latest information.
- Public Health maintains its one-week operational period for this response.
- Public Health will continue to share the situational report with other local health departments, Montgomery County Emergency Management, Greater Dayton Area Hospital Association and Dayton Metropolitan Medical Response System partners.

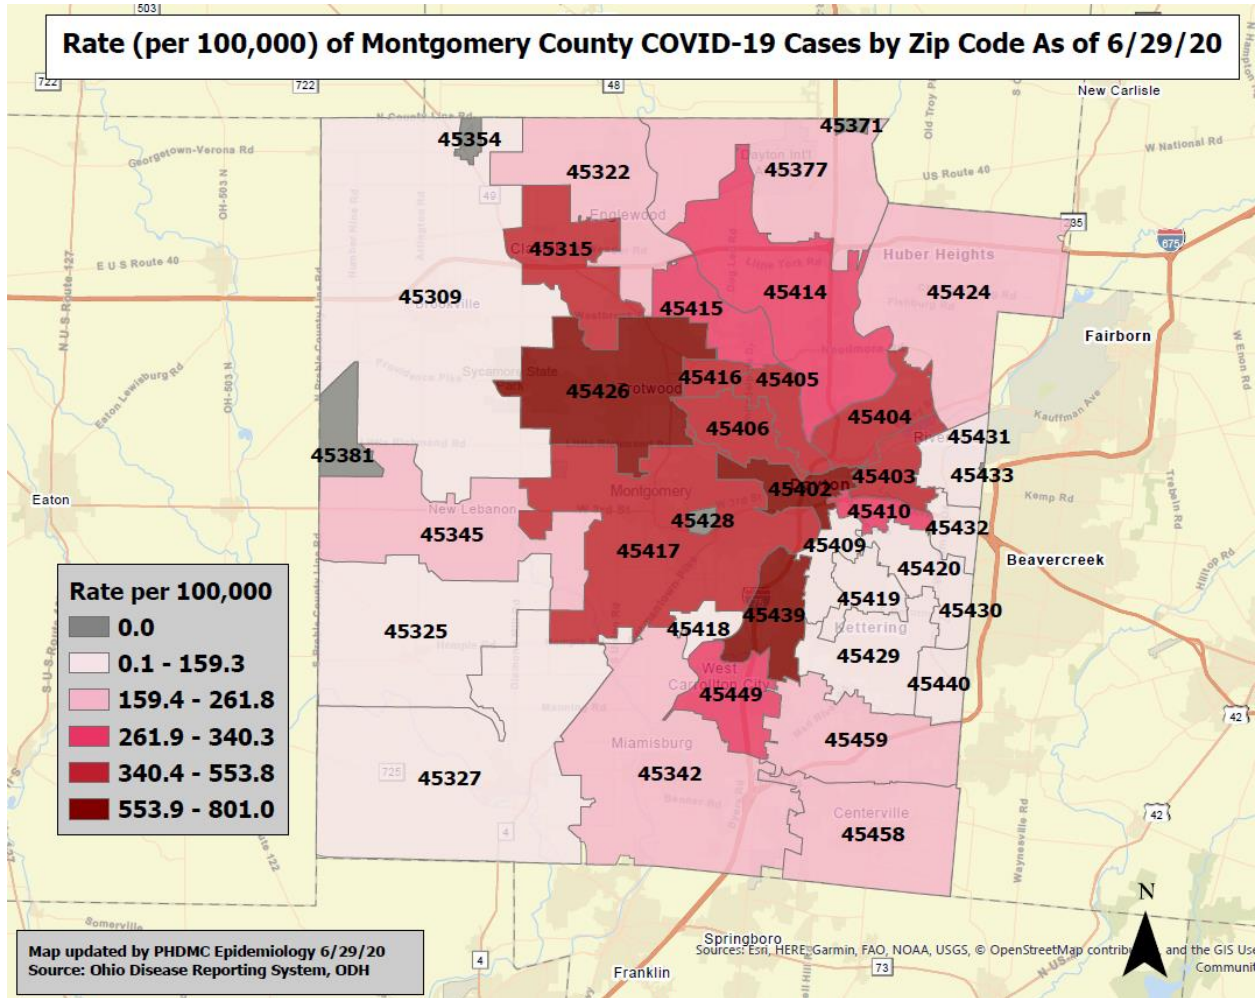

COVID-19 Situation Report

Coronavirus

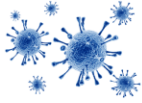

Regional Breakdown of cases:

CDC Update (Situation in the US):

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus named COVID-19. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other [international locations](#), including the United States. CDC will update the following U.S. map daily. Information regarding the number of people under investigation will be updated daily.

CDC Response Updates:

Level 3 Travel Health Notice: Widespread ongoing transmission with restrictions on entry to the United States

CDC recommends that travelers avoid all nonessential travel to the following destinations. Most foreign nationals who have been in one of these countries during the previous 14 days will not be allowed to enter the United States.

- [China](#)
- [Iran](#)
- [Most European Countries](#)
- [United Kingdom and Ireland](#)

Level 3 Travel Health Notice: Widespread ongoing transmission without restrictions on entry to the United States

CDC recommends that travelers avoid all nonessential travel to all global destinations:

- [Global Pandemic Notice](#)

Level 2 Travel Health Notice: Ongoing community transmission

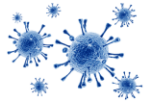

CDC recommends that older adults and people of any age with serious chronic medical conditions should consider postponing nonessential travel to most global destinations.

Level 1 Travel Health Notice: Limited community transmission

CDC recommends travelers practice usual health precautions recommended for their destination.

World Health Organization Update:

- Yemen is the world's worst humanitarian emergency and the already vulnerable people of Yemen are facing the added threat of COVID-19. This new burden on medical facilities could result in a catastrophic death toll. WHO and the King Salman Humanitarian Aid and Relief Centre have joined forces to ensure access to healthcare for the vulnerable in remote areas through the provision of a minimum service package.
- UNICEF and WHO have supported a national immunization campaign in Syria amid the COVID19 pandemic. There has been about a 5% reduction in vaccination coverage in the first half of 2020, mainly as a result of challenges caused by the COVID-19 pandemic. During the 5-day immunization campaign, implemented by the Syrian Ministry of Health, health workers checked the vaccination status of more than 900,000 children and vaccinated more than 210,100 children.
- To promote community empowerment and trust, a 'Global Risk Communication and

Coronavirus

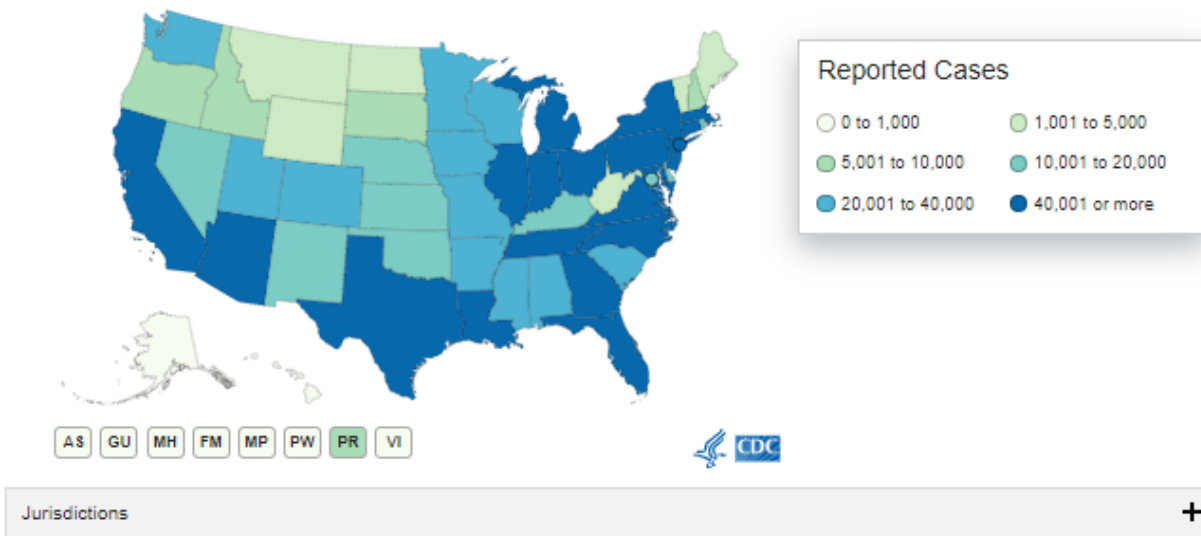

Community Engagement Collective Service' has been launched by WHO, UNICEF and IFRC with support from the Global Outbreak and Response Network and the Bill and Melinda Gates Foundation.

Cases & Deaths by Jurisdiction

40 jurisdictions report more than 10,000 cases of COVID-19.

This map shows COVID-19 cases and deaths reported by U.S. states, the District of Columbia, New York City, and other U.S.-affiliated jurisdictions. Hover over the map to see the number of cases and deaths reported in each jurisdiction. To go to a jurisdiction's health department website, click on the jurisdiction on the map.

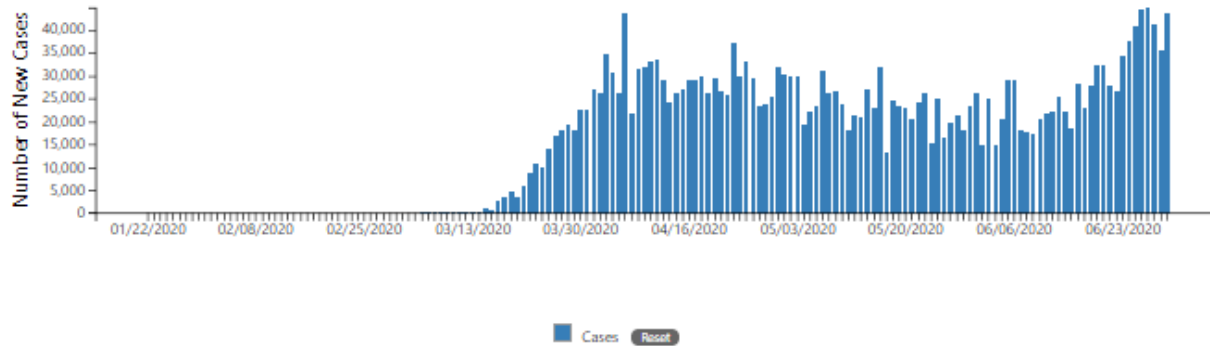

COVID-19 Situation Report

Coronavirus

New Cases by Day

The following chart shows the number of new COVID-19 cases reported each day in the U.S. since the beginning of the outbreak. Hover over the bars to see the number of new cases by day.

Current Objectives:

1. Limit the spread of disease within Montgomery County.
2. Continue to monitor the situation in conjunction with the Ohio Department of Health and the Centers for Disease Control and Prevention.
3. Continue information sharing with partners.
4. Continue to provide information to the media and the public through interviews, social media and our website.

Long-term Planning Considerations:

Continued monitoring and maintaining surveillance locally.

Epidemiology Syndromic Surveillance Summary:
