\*\* Does not include 4/15 as reporting criteria changed that day an previously uncounted deaths were tallied

- Infected
- Presumed Recovered
- Deceased

# The United States

## Daily Case Growth

Spike in cases on 12/18 may either be attributed to change in guidelines or cases catching up. No specifics can be found as to why this occurred on the CDC's website.

## Daily Death Growth

On 4/16 the CDC started tracking "suspected" deaths in their statistics thus causing the spike in reported fatalities.

Spikes on 4/6, 6/26 appears to be data catching up, no mention of cause of increase could be found.
